MEMORANDUM FOR THE RECORD

SUBJECT: Arrangements for Obtaining Prototypes of the [REDACTED]
Teleciphering Machine

25X1

25X1
25X1

1. When in [REDACTED] I called upon Dr. [REDACTED] and saw the operation of his teleciphering device. [REDACTED]

3. In the event [REDACTED] does not consent to lend us these experimental machines, [REDACTED] has agreed to send us a complete circuit out of his first manufacturing run. He claims to have an order for 100 machines and states that he is putting through a run of 108, and that he will sell me two of that run in any event. These, we would have to pay for.
